Subject: comment for extension of comment period for Oxitec

INTERNAL, DELIBERATIVE, DO NOT RELEASE

Bob and Anne,

I want to make you aware that over the weekend we received one request to extend the comment period for the OX5034 EUP application submitted by GMO free USA. They are requesting a 90 day extension. I've attached the draft comment for your reference, note it is not publicly available in the docket quite yet. I'm also attaching the paper they cite that was published Sept. 10. in Nature. Let me know if you want to discuss.

Thanks.
